BSidesAugusta Sponsorship

The foundation of Security BSides was predicated on individuals within the Information Security community who wanted to participate within their industry, sharing thoughts and ideas with other passionate InfoSec professionals, while creating a sense of community and stewardship for their collective tradecraft. As a sponsor for BSidesAugusta, it's an expectation that participation goes beyond handing out swag and setting up sponsor booths. Our sponsors send technical staff and thought leaders who discuss real-world problems and offer practical solutions. Be prepared to be a part of the conference, sharing ideas, meeting people, and interacting with the local community.

Major conferences focus on the current hot topics in information security. BSides events explore the fringe of conversation and focus on the "next big thing." BSides gives voice to the conversation that is happening just below the surface and sponsoring enables you to engage in that conversation.

Sponsorship Benefits

Brand recognition and awareness

Depending on the level of sponsorship, you may recognize your brand placement at some or all of the following: t-shirts, signage/lanyards, brochures, and an announcement prior to each presentation and on social media sites (Twitter, Facebook, etc.). Based on your level of participation, creative and custom branding may be arranged. Such ideas may include, but are not limited to:

- Network Equipment
- Contests or giveaways
- Training Sessions/seminars

Reach Your Target Audience

BSidesAugusta reaches out to industry professionals looking to augment their knowledge with cutting edge presentations and ideas. Typically, this includes industry leaders, thought leaders, information security professionals from the public, private and academic sectors, and even students who wish to expand their depth and body of knowledge.

Recruitment

In a challenging job market, the information security industry still has more job openings than qualified personnel to fill them. BSidesAugusta sponsors will have the opportunity to interact directly with highly skilled information security professionals, engaging them in discussion on leading-edge security ideas and some of the industry's greatest challenges. Sponsors will also be eligible to receive resumes from participating conference attendees.

Augusta's Cyber Stock is Rising on the State, National, and International Stages

For nearly a century, Augusta has been world-renowned for its famous golf tournament. But it's also rapidly becoming known as a hub of cybersecurity activity on multiple levels.

In 2017 and 2018, the State of Georgia invested over \$100 million in the construction of the Georgia Cyber Center along Augusta's Riverwalk and has attracted investment from across the country. Area universities have mature cybersecurity programs and local schools have invested in cybersecurity education. The local information security community is very active and engaged through a myriad of local, national, and international organizations, as well as through events like BSidesAugusta. The Federal Government invests in the Augusta area as well. The US Army Cyber Command headquarters and US Army Cyber Center of Excellence are located at nearby Fort Gordon, where the Army's cyber workforce is trained and much of it operates. Augusta is also receiving global attention. In 2017, a Fortune magazine article listed Augusta among global cities - Atlanta, DC, Silicon Valley, Tel Aviv, Boston, and London - as a contender among seven cities to become "the World's Cybersecurity Capital." CSO Online named Augusta one of the "Top 10 global cybersecurity hubs for 2019" among cities such as London, San Diego, New York City, and San Antonio.

Community Atmosphere

For some, sponsoring large events is not within their price range leaving them with no option for communicating their message. BSidesAugusta is just the place for you! This smaller, community atmosphere brings together active and engaged participants who want to absorb information. Sponsoring a BSidesAugusta event enables your organization to be that big fish in a small pond and better communicate your message to an active audience.

Stay in touch with the industry

BSidesAugusta enables its supporters and participants to identify and connect with industry leaders and voices. These participants represent the social networking of security. They are the people with who you want to engage to solicit feedback and bring voice to your conversation.

Stay abreast on the next big thing

Nobody knows what the "next big thing" will be, but these events are community-driven with presentations chosen by industry peers. Keeping in touch with the topics that are making waves at the ground level, will mean your company is prepared when the "next big thing" hits.

Media Coverage

In just over ten years, BSides has gathered mass media attention and been written up in Forbes, CSO Online, Network World, Computerworld, Information Week, The Register, ZDNet, and Dark Reading magazines. In addition to the blog posts and podcasts, BSides has also received coverage from Hacker News Network (HNN), EFFector, and Cisco System Cyber Risk Report. For more information, check out:
